

Mobile Application

Requirements for iOS Devices

Recommended iOS Devices

- iPhone SE (3rd Generation)
- iPhone 15

Note: For iPhone corporate device deployments Telmediq recommends the iPhone SE devices based on our experience with them with respect to ease of use, wireless reliability, build quality, durability and performance to price.

Recommended iOS Versions

- iOS 17 and above

Supported iOS Versions

- iOS 15 and above

Note: Due to security and performance, Telmediq only supports iOS 15.0 or above.

Supported iOS Devices

Note: Any device that supports iOS 15 or above is supported by Telmediq.

- iPhone SE (2nd Generation) and above
- iPhone XS + Greater
- iPad Air 2+
- iPad Mini 4+
- iPad Pro 1st+
- iPad 7th Generation

Note: Devices without cellular wireless connections will not be able to support alerting policies that utilize SMS or call notifications. This could potentially cause messages to be delayed.

Note: Telmediq doesn't recommend using iPod Touch devices as corporate phones due to issues encountered maintaining a persistent and reliable wireless connection.

Telmediq Shared Device Login

Telmediq supports seamless NFC sign in on iPhone XS and above. All supported iPhone systems have barcode.

Apple Watch

- Series 5 and above
